

SOCIETY FOR HISTOCHEMISTRY

NEWSLETTER 2018

www.histochemistry.eu

Dear Members of the Society,

It is our great pleasure to update you with our future activities of the Society for Histochemistry.

The Society's traditional annual symposium will be organized in collaboration with the COST Action "An integrative action for multidisciplinary studies on cellular structural networks" in March in Prague.

In this newsletter, we also bring you information on Histochemistry and Cell Biology, the official journal of the Society, prepared by Prof. Jürgen Roth, Senior Editor-in-Chief.

Finally yet importantly, the 16th International Congress of Histochemistry and Cytochemistry will take place in Prague in 30 August – 2 September 2020.

Klara Weipoltshammer & Pavel Hozak

President

Secretary

SOCIETY FOR HISTOCHEMISTRY NEWS

The 59th Symposium of the Society for Histochemistry was organized as the session “New technologies in genome and cytogenetics research” of the 22nd International Chromosome Conference, Sept. 2-5 2018 in Prague. A highlight of the session was the Robert-Feulgen-Lecture given by Christoph Cremer, Mainz, Germany: „Nuclear genome nanostructure imaging at single molecule resolution“. The Society supported seven young scientists with 400 € each. All of them were able to present original results of their research either as poster or as oral contributions. In October 2018, started the open call for the Robert Feulgen Prize 2019. The monetary prize to be awarded is 2,000 EUR and the contributions may be either towards the development of the new histochemical and cytochemical techniques or in the application of existing technology towards solving important problems in biology and/or medicine. Addressed are scientists working in microscopical sciences (in the widest sense) as well as in biochemistry, cell biology, endocrinology, in situ molecular techniques, and neurosciences. Scientists in their mid-career, typically up to 10 years after obtaining the PhD degree are encouraged to apply.

Awardees of the 59th Symposium of the Society for Histochemistry

The Society for Histochemistry has the honour of organizing the next International Congress of Histochemistry and Cytochemistry in Prague, 30 August – 2 Sept. 2020. In order to coordinate planning of this event a meeting of the main organizing representatives was held in Prague on July 12th/13th 2018 with the following participants: for the IFSGC - Hinke Mulhaupt, Zbigniew Kmiec for the Society for Histochemistry - Pavel Hozak, Klara Weipoltshammer support administration + organization - Michaela Zurkova; for the PCO (Guarant) - Thomas Raboch.

The meeting started with a site visit of the conference facilities of a new a new, modern venue Cubex Centrum Prague inspired by Czech cubist architecture. Furthermore, several important decision as to

room contingent and the structure of the scientific program, the social program and procedures for selecting topics and honorary lecturers were taken which makes a more detailed planning of the event possible. It is our great pleasure to extend a warm invitation to everyone to attend what is sure to be a memorable conference. There will be, as usual, emphasis on supporting our younger conferees. We hope to welcome you to Prague and the great ICHC 2020! Plans for 2019: The 60th Symposium of the Society for Histochemistry is preliminarily planned as a session of the COST “Nuclear Organization and Lipids Involvement in Gene Expression” conference to be held on 23-25 October in Prague, Czech Republic.

ICHC 2020 Conference Venue - Cubex Centre Prague

JOINT WORKSHOP OF THE SOCIETY FOR HISTOCHEMISTRY AND THE COST ACTION “An integrative action for multidisciplinary studies on cellular structural networks”

Prague, 31 August – 1 September 2018

The workshop covered the topic of New methodologies to study mechanobiology of cells and tissues, which bridges the gap between continually developing technical equipment and methodologies and the biological applications. The workshop was dedicated to highlighting a technical aspect, encouraging discussion and facilitating the use of the respective technique.

The aim of the workshop is to allow all interested parties to present their data and seek for prospective collaboration and networking. An extra space was allocated for early career researchers.

More information and the report from the meeting is to be found here: <https://www.eurocellnet.eu/past-events-gp3>

INTERNATIONAL FEDERATION OF SOCIETIES FOR HISTOCHEMISTRY AND CYTOCHEMISTRY

The Society for Histochemistry is a member of the [International Federation of Societies for Histochemistry and Cytochemistry](#) (IFSHC). The IFSHC promotes communications and co-operation among scientists, who are interested in these fields of study, throughout the world. In support of these aims, the IFSHC arranges International Congresses to provide a forum for scientists interested in histo- and cytochemistry.

Structure

- **The IFSHC Executive Committee:**

President: Serap Arbak (Turkey), Secretary-General: Zbigniew Kmiec (Poland), Treasurer: Hinke Multhaupt (Denmark), Councillors: Raymond Coleman (Israel) and Tetsuro Takamatsu (Japan).

16th International Congress of Histochemistry and Cytochemistry

30 August – 2 September 2020, Prague, Czech Republic

The main goal of ICHC 2020 is to bring the worldwide histochemists together and provide an environment for close cooperation, exchange of information and collaborations.

Main topics

- *Emerging techniques and probes in microscopy immunohistochemistry*
- *Metabolic mapping*
- *Histopathology and quantitative approaches*
- *Nanotechnology in biology and medicine*
- *Progressive light and electron microscopy methods*
- *Advances in sample processing for microscopy*
- *Molecular structure of the cell nucleus and cytoplasm*
- *Cellular adhesion and extracellular matrix*
- *Cell physiology and signalling*
- *Imaging proteomics*
- *Cell regulation, differentiation and developmental biology*
- *Neuroscience*
- *Cancer biology*
- *Stem cell biology and regenerative medicine*
- *Glycobiology*

MEMBERSHIP ISSUES & INFORMATION ON FEES

**PLEASE CLICK ON THE LINK AND UPDATE YOUR MEMBERSHIP DATA
INTO A SFH MEMBERSHIP DATABASE**

Member Fees:

- Full members: 40 EUR
- Emeritus/Retired members: 10 EUR

Term of Payment: Fees are due to 30th of September of each year!

Methods of Payment:

- Members having an account with a bank residing in Germany:

Money transfer directly to the following account:

Kontonummer: 159 313 600

Kreditinstitut: Deutsche Bank, Tübingen, Germany

BLZ (Bankleitzahl): 640 700 24

- Members from other European countries or members outside Europe:

Money transfer directly to the following account:

Society for Histochemistry/Gesellschaft für Histochemie

Credit Institute: Deutsche Bank, Tübingen, Germany

IBAN: DE57 640 700 240 159 313 600

BIC (SWIFT): DEUT DE DB640

- You can also pay your membership on your membership account via the link above by debit/credit card

Please make also sure that all bank transfer costs are charged to the sender.

Please do not forget to state your name and SFH Fees for the year "20.."

For further information please contact the treasurer of the Society at: fees@histochemistry.eu

FURTHER INFORMATION ON THE SOCIETY FOR HISTOCHEMISTRY

Board of the Society for Histochemistry:

You may contact the board by a group e-mail info@histochemistry.eu, directly at the annual meetings or via their personal e-mails:

Prof. Dr. Klara Weipoltshammer, *president* - klara.weipoltshammer@meduniwien.ac.at
Prof. Dr. Pavel Hozák, *secretary* - hozak@img.cas.cz
Prof. Dr. Marco Biggiogera, temporary treasurer and *member* - marco.biggiogera@unipv.it

Benefits for members:

1. Prestigious prizes, awards and stipends as well as competitive student packages for attending symposia of the Society.
2. Personal subscription to the Society's official "Histochemistry and Cell Biology" at only ten percent of the regular rate. Based on the ISI-impact factor, "Histochemistry and Cell Biology" is the leading journal in the field.
3. Interactions with senior scientists resulting in multiple career opportunities. Selected top scientists in the field can be met and contacts and discussions with them are encouraged in the informal atmosphere of the symposia.
4. Symposia are conveniently scheduled (usually in September) at reasonable prices.
5. Besides oral presentations by top scientists in the field, the program of the symposia allows for selected presentations on the basis of submitted abstracts.
6. "Free communications" and presentation of posters receive ample attention at the symposia and are considered to be important elements of the symposia.
7. Access to the "members only" section of the Society's highly informative homepage (www.histochemistry.eu).
8. Annual Newsletter for members only.
9. An annual membership fee of only 40 EUR, which entitles a 40 EUR reduction of the registration fee for the symposia of the Society.
